

Janay Foster

Rockwall, TX

814-460-4779

jfoster@larsontexts.com

Janay Foster is a National Math Consultant for Big Ideas Learning. She has taught math and science to elementary students from kindergarten through 4th grade. During her time in the classroom, her primary focus was helping students fill gaps based off district tests and building math-confident learners. Janay also wrote several successful grants for classroom student-centered learning opportunities, has provided high-level professional development for teachers, and has created training and teaching deliverables using media/technology sources.

Janay graduated from Texas A & M - Commerce with a Bachelor of Science in Interdisciplinary Studies.
