

Lisa Bacon

Burlington, MA

1-814-651-1161

lbacon@larsontexts.com

Lisa is a National Education Consultant for Big Ideas Learning. She brings over 15 years of experience as an educator having taught Honors and AP Biology. Lisa has also served in various roles, such as assistant Cross Country Coach, Science Department Chair, and Eleventh Grade Dean. Her professional interests have included the integration and application of mathematics in science courses across grades K-12 and the utilization of various instructional practices, such as guided inquiry, to support student learning through investigation and analysis.

Lisa holds a Master of Science in Secondary Science Education and a Bachelor of Science in Biology. For the past decade, Lisa has worked in K-12 educational curriculum publishing, serving as a national presenter of inquiry-based science education curricula and a regional representative for elementary, middle, and high school basal curriculum programs.
