liwilliams@larsontexts.com

Lisa Williams is a National Education Consultant for Big Ideas Learning. She consults with schools and districts in Virginia and West Virginia to support their mathematics achievement goals. She also presents and services the *Big Ideas Math* programs to current and potential adopters of the program. She has extensive experience in the educational publishing arena and is a strong advocate for helping teachers to adopt best practices in mathematics education.

Lisa holds a Bachelor's Degree in English Education from Glenville State College, with minors in both Mathematics and Public Relations. She has completed her coursework for a Master of Liberal Arts in Composition and Rhetoric from Ohio University. Her experience includes 13 years teaching English at the secondary level, 10 years as a sales representative and manager for a major textbook publisher, and 8 years working as a professional development consultant.
