

Matthew Stoddard

Palestine, TX
(814) 969-0943

mstoddard@larsontexts.com

Matthew is a National Mathematics Consultant for Big Ideas Learning. He consults with schools and districts to support their mathematics programs. He also presents the *Big Ideas Math* programs to current and potential adopters of the program.

Over his 14-year teaching career, Matthew taught high school English, Math, and Physics. He utilized a blended learning format for several years and created much of his own content, including tutorial videos and interactive apps for the TI-Nspire calculator. He has delivered professional development at both the district level and statewide conferences on a variety of subjects, including vertical alignment of curriculum, effective use of calculators for instruction, and how to code apps for the TI-Nspire.

Matthew's educational background includes a M.Ed. in Curriculum & Instruction from UT-Arlington in Arlington, TX and he is currently a doctoral candidate in Educational Technology at Walden University.
