

# Support for Spanish-Speaking Students

**Big Ideas Learning** is committed to offering resources to ensure success for Spanish-speaking students. *California Math & YOU* and *Concepts & Connections for California* offer students and educators a blend of print and digital resources for Spanish language support.

## Spanish Translated Printed Materials

### **Student Edition** (Grades K–Algebra 2)

The **Spanish California Student Edition**, available in both print and digital, is a carefully developed translation of the student-facing program. In addition, a full assessment suite in Spanish ensures summative assessment can be delivered effectively.

### **Teaching Edition** (Grades K–Algebra 2)

The **Spanish California Teaching Edition**, available in both print and digital, is a carefully developed translation of the Instructional Guide and Answer Guide. All content and page-by-page support are translated for educators to effectively plan, teach, and assess completely in Spanish.

### **Practice Workbook: Lesson and Standards-Based Practice** (Grades K–Algebra 2)

The **Spanish California Practice Workbook: Lesson and Standards-Based Practice**, available in both print and digital, is a student consumable workbook that offers targeted practice for student success of the content within a grade. It enables students to practice concepts at a lesson level and develop an understanding of each standard as students prepare for high-stakes assessments.

## Digital Experience Resources

### In the Classroom

The following items are available as fully translated Spanish resources for kindergarten through Algebra 2 in the Big Ideas Learning digital experience as downloadable and printable PDFs:

- Student Edition
- Big Idea of the Chapter
- Getting Ready for the Chapter\*
- Investigate
- In-Class Practice
- Practice
- Performance Task
- Connecting Big Ideas
- Summative Assessments

\*Grades 6–Algebra 2 only

### At-Home

The **Game Library** provides Spanish audio and translated PDFs to help with engagement both in class and at home. **Vocabulary Flash Cards** and the **Multi-Language Glossary** highlight key terminology, in Spanish, to promote mathematical literacy. **Family Letters** will help families make real-world and at-home connections to develop language and mathematical skills.

## Digital Experience Support

### Digital Language Audio

In the digital experience, Spanish audio is available using **ReadSpeaker**. Learners and teachers are empowered with text-to-speech accessibility technology for education and learning. Text to speech developed by ReadSpeaker allows students to listen to text, using high quality natural-sounding voices. Students can use this technology on all devices (smartphone, computer, tablet, etc.).

Spanish audio translation for kindergarten through Algebra 2 is available using ReadSpeaker in the Big Ideas Learning digital experience for the following resources:

- Big Idea of the Chapter
- Getting Ready for the Chapter\*
- In-Class Practice
- Practice
- Warm-Up
- Performance Task
- Connecting Big Ideas
- Skill Builder
- Skill Foundations

\*Grades 6–Algebra 2 only
