

Introducing the Digital Experience

Big Ideas Learning is excited to offer a brand-new digital experience for the *California Math & YOU K-12 series* that creates a high-quality, engaging, and interactive learning environment for teachers and students.

Easy Planning

Planning lessons is simple with *California Math & YOU*. Teachers can quickly customize which resources to use with students, as well as their sequence, so that the right resource is available at the right time.

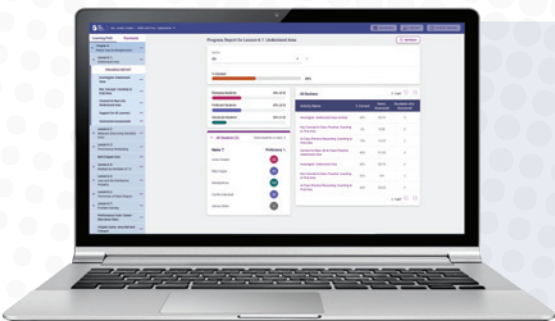

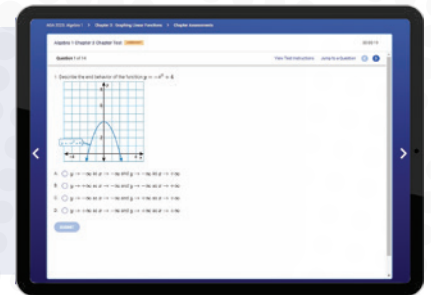

Active Learning

With guided interactive lessons and an emphasis on conceptual understanding, students will move from passive to active learners, while teachers facilitate students' engagement and understanding.

Effective Assessing

California Math & YOU takes formative and summative assessments to a new level, giving teachers assignable open-ended questions that break down students' foundational skills into chunks and provides teachers with key insights into what students know.

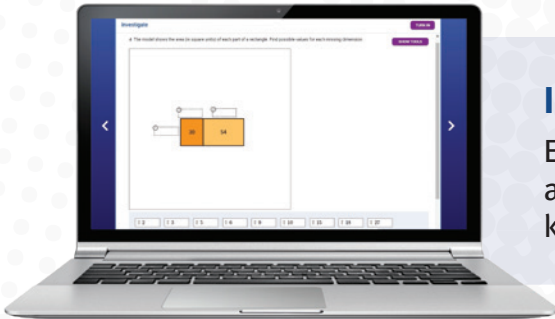

Actionable Reporting

With data-driven insights and predictive suggestions to improve student outcomes, teachers can make instructional decisions that have the highest impact on student learning. Teachers can assign remediation or enrichment resources based on the system-recommended grouping and suggested resources.

Check out these NEW features and tools!

Launch the Chapter with a Career

Excite students as you launch each chapter with Career Explorations Videos (K–8) and Everyday Explorations Videos (9–12) that anchor each chapter to how mathematics is used in a variety of careers and connect to the chapter Performance Task.

Interactive Investigations

Engaging and interactive Investigations allow students to explore and discover the concepts from each lesson as they use their prior knowledge along with models or manipulatives.

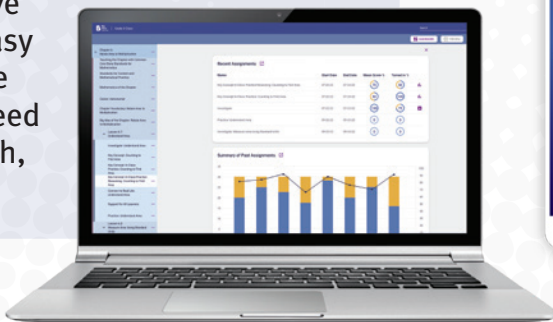

Assignable Differentiated Resources

Printable and assignable worksheets for reteaching, enrichment, and intervention provide teachers with all the right tools they need to accelerate student learning. The digital Skill Builders and Skill Foundations provide answer-specific feedback to help students get back on track!

Teacher Dashboard

With the Teacher Dashboard, teachers have quick and easy access to the tools they need to plan, teach, and assess.

Mobile-Friendly Design

The *California Math & YOU* series is accessible on mobile devices, which provides teachers and students with the option to utilize the content or complete assignments on the go.
